

Business Credit Reports

Better Intelligence, Better Results

Altus provides comprehensive business credit reports from leading credit reporting agencies, offering in-depth analytics and insights tailored to your business needs. Altus clients pay for only the reports they need with no annual subscription or minimums. With an intuitive portal to order and review reports, Altus empowers clients to make better business decisions through unparalleled levels of access and affordability.

Access

Choose from an comprehensive list of credit report solutions combining business, trade and public record data from the industry standard in trade credit suppliers.

Gain insights from Altus credit experts on selecting the right report, verifying accuracy and interpreting it without the hassle of contacting credit suppliers' customer service.

View, purchase, download, print and share reports via Altus' intuitive client portal, with crucial alerts and updates delivered automatically during the monitoring period.

Affordability

Purchase the reports you need when you need them with no sign-up charge, no subscriptions and no minimum purchase requirements.

Grow your team and scale your business on your own terms with no additional charges for new account users, allowing for complete transparency and control.

Create a payment structure that matches your business goals with customizable pricing options and discounts, including prepaid packages.

“ I've been using Altus credit reporting for all new customers. I find the reports extremely helpful when determining whether or not to extend payment terms. The process is quick, easy and inexpensive. I highly recommend it. ”

— Dale L., Sales Coordinator

The Right Reports

Altus offers a complete list of industry-leading reports and add-ons that deliver the right amount of data to drive better business intelligence. Some of our most popular reports include:

PRO

PRO provides a comprehensive credit picture with a compilation of industry-leading credit intel as well as essential trade data.

Profile Plus

Profile Plus offers background information and credit risk score along with full credit report and trade data.

Score

Score contains essential credit info in a condensed and streamlined format, including risk score, credit limit recommendation and monthly and quarterly trends.
